

Crazy Quatsh Qompetition (IT'S BACK BABY)

The OQQ is a simple game: complete challenges, get points, win prizes. We came up with the challenges below, each worth a certain amount of points. The rules are as follows:

- Since Bart won last year he is excluded from participating (and now oversees distributing points)
- The organization (Bart) is always right
- Let Bart know if you think you earned points (through one of the following: WhatsApp, Email, Telegram, Carrier pigeon, Airplane banner, Bus stop advertisement, Message in a bottle)
- Challenges marked with # are repeatable, others are one time only.
- The amount of points is in brackets behind the challenge.
- Most points wins, end date not yet known :)
- The board can participate, but the organization will make sure they don't win :)

Good luck and enjoy!

Challenges

- Win a game of squash while playing with two rackets, left-side balls played with left hand and right-side balls played with right hand. (10)
